The Aashirwad Promise

Blessings in every shipment. Built for success.

Aashirwad is a Hindi and Gujarati word for blessing. It is the spirit behind our name: good packaging does more than hold a product. It protects your reputation, reaches your customer in perfect condition, and brings goodwill back to your business with every shipment.

Aashirwad Ventures is a Rajkot-based export house for polypropylene woven packaging. We serve buyers across India and overseas, with one dependable partner who handles sourcing, quality, documentation and shipping from start to finish.

WHAT GUIDES US

Positive

We solve problems calmly and quickly. Every enquiry is welcome, big or small.

Success

Your growth is our measure. We win when your goods arrive safe and on time.

Integrity

Honest specifications, clear prices and no surprises on the final invoice.

Reach

One partner for the domestic market and for export. Same standard everywhere.

Serving India and the World

One standard of quality for domestic supply and international export

EVERY ORDER STARTS HERE

01 Sourcing
Audited manufacturing partners in Gujarat, matched to your specification and budget.

02 Quality control
Raw material, in-process and pre-shipment checks. Third-party inspection is welcome.

WITHIN INDIA

Domestic supply

ROAD AND RAIL

DOCUMENTATION
GST invoice and e-way bill support for every domestic order.

LOGISTICS
Pan-India delivery by road and rail, ex-works or delivered.

WHERE WE DELIVER
Gujarat, Maharashtra, Rajasthan, Madhya Pradesh and beyond.

INTERNATIONAL

Export shipments

CONTAINER AND SEA FREIGHT

DOCUMENTATION
Commercial invoice, packing list, bill of lading, certificate of origin and other export papers.

LOGISTICS
Container planning, loading supervision and shipping to your port from Mundra, Kandla or Nhava Sheva.

WHERE WE SHIP
Europe and the UK, Middle East and Africa, South-East Asia and Oceania, the Americas and CIS.

Domestic and export, one standard

Whether your goods are going to Rajkot or to Rotterdam, they receive the same specification checks, the same packing and the same care.

The Collection

Five product lines, each made to your specification

01

FIBC Bulk Bag

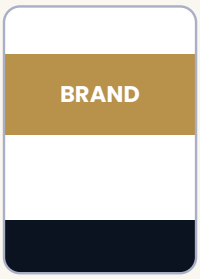

500 to 2000 kg bulk bags in 14 styles for powders, granules and aggregates.

02

PP Woven Fabric Roll

Plain or laminated fabric in rolls for converters and bag makers.

03

BOPP Bag

Glossy, photo-quality laminated bags for premium retail packs.

04

Multi-Colour Bag

Vibrant printed woven bags that stand out on the shelf.

05

PP Woven Anti-Slip Bag

Textured surface that keeps stacks stable in storage and transit.

Something custom?

Your idea, made to your specification. Send a sample, a drawing or a brief, and we will source it and quote within 24 hours, for buyers in India and international markets.

FIBC Bulk Bags

Flexible intermediate bulk containers, also known as jumbo bags

APPLICATIONS

- Fertiliser, cement, sand, minerals and ceramics raw material
- Chemicals, resins, polymer granules and powders
- Food grains, flour, sugar, seeds and animal feed

TECHNICAL SPECIFICATIONS

Safe working load	500 kg to 2000 kg
Safety factor	5:1, 6:1 or 7:1 (single trip or multi trip)
Bag styles	14 styles: 4-panel, U-panel, circular, baffle (Q), coated, dust-proof, double-layer, one-loop, two-loop, full-loop, panel cross, conductive, UN certified and ventilated (see next page)
Lifting loops	Four corner loops, cross-corner, one-loop, two-loop, full-loop or tunnel loops
Loop material	PP (standard), PP multifilament (soft loops) or PP fibrillated (semi-soft loops), in various designs and colours
Top (filling)	Full open, skirt (duffle), filling spout, flap, iris (pyjama) or star closure
Bottom (discharge)	Flat closed, discharge spout, skirt (duffle), flap, iris (pyjama), star closure or conical
Liner	With or without PE liner: loose, tabbed, glued, stitched, suspended or form-fit
Fabric	PP woven (flat woven), coated or uncoated, UV-stabilised on request
Sewing	Safety stitch and double chain stitch, with or without dust-proof sewing
Thread / webbing	Blue, black, green, red and other colours, matched to the Pantone system
Document pocket	Zip-lock or self-closing, in various sizes and materials (transport PE or PP)
Printing	Up to 4 colours: logo, product name and handling marks
Sizes	Fully customisable (example: 90 x 90 x 100 cm)

FIBC Bag Styles

Fourteen constructions, each made to your specification

4-Panel Bag
Body built from four fabric panels sewn at the corners.

U-Panel Bag
A U-shaped main panel with two side panels, for fewer seams.

Circular Bag
Tubular woven body with no vertical side seams.

Baffle (Q) Bag
Internal baffles hold the bag square when filled, for better stacking.

Coated Bag
Coated fabric for added moisture and dust resistance.

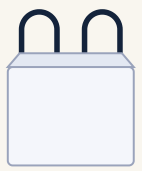

Dust-Proof Bag
Dust-proof sewing and closures for fine powders.

Double-Layer Bag
Two fabric layers for extra strength and product protection.

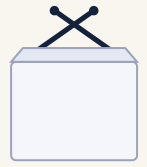

One-Loop Bag
One central lifting loop for single-point lifting.

Two-Loop Bag
Two lifting loops, simple to hook by forklift or crane.

Full-Loop Bag
Lifting webbing runs the full height of the body for even load carrying.

Panel Cross Bag
Cross-corner lifting loops for balanced lifting.

Conductive Bag
Conductive fabric with earthing for static-sensitive contents.

UN Certified Bag
UN-certified construction for regulated goods, where required.

Ventilated Bag
Breathable fabric for produce that needs airflow.

Something different?

Send a drawing or a brief. We will make the style to your specification and quote within 24 hours.

PP Woven Fabric Roll

Plain and laminated fabric supplied in rolls

Lightweight, strong and economical. Our woven fabric is supplied to bag manufacturers, converters and packers who stitch, print or laminate it into finished goods. It is also used as ground cover, tarpaulin base and protective wrap.

- Plain, or laminated on one or both sides
- Tubular or flat (open) fabric
- White, natural or any custom colour
- UV-stabilised option for outdoor use

TECHNICAL SPECIFICATIONS

Material	100% virgin polypropylene tape yarn
Fabric weight	50 to 250 GSM (custom GSM available)
Width	30 cm to 250 cm (custom widths available)
Weave / mesh	Standard 10x10 to 14x14 (custom on request)
Roll size	As per requirement; typical roll 50 to 200 kg
Lamination	Unlaminated, or PP/PE lamination of 10 to 30 GSM
Colours	White, natural, blue, green, yellow, black or custom shades
Core	Paper or plastic core, wrapped and strapped for export

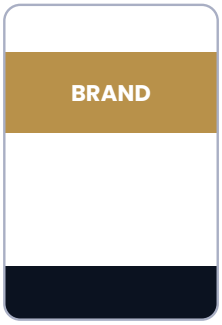

PACKING

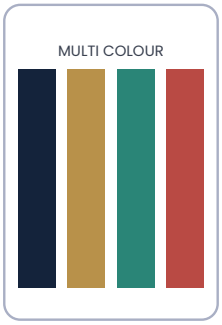

Each roll is film-wrapped and labelled with GSM, width, length and weight. Rolls are loaded standing or on pallets for 20 ft and 40 ft containers.

BOPP and Multi-Colour Bags

Printed woven bags for brands that want to be noticed

BOPP Laminated Bag

A woven PP bag laminated with printed BOPP film for a glossy, photo-quality finish. Ideal for brands that want shelf appeal with moisture resistance.

- Rotogravure printing, up to 8 colours
- Glossy or matt finish
- Moisture and scuff resistant
- Strong tape-woven structure

Multi-Colour Bag

A printed woven PP bag with bright multi-colour designs. A cost-effective way to brand rice, flour, sugar, seeds, feed and pulses.

- Flexo printing, up to 4 colours
- Custom artwork and logo
- Laminated or unlaminated
- Vibrant, long-lasting colour

TECHNICAL SPECIFICATIONS (BOTH TYPES)

Material	Virgin PP woven fabric (BOPP film lamination on BOPP bags)
Capacity	5 kg, 10 kg, 25 kg, 50 kg (custom capacity available)
Size	Fully customisable (example: 55 x 90 cm for a 50 kg bag)
Fabric GSM	50 to 120 GSM, matched to bag capacity
Printing	Up to 8 colours (BOPP) / up to 4 colours (multi-colour)
Style	Open mouth (sewn), heat cut or valve type on request
Extras	Handle, PE inner liner, micro-perforation, easy-open
Packing	Bundles of 100 or 500 bags, baled for export

PP Woven Anti-Slip Bag

Safer stacking. Safer shipping.

Heavy sacks stacked on pallets can slide and topple in transit. Our anti-slip woven bags carry a textured, high-friction outer surface that grips the bag above and below, keeping loads stable and reducing damage.

- Better stack stability on pallets and in containers
- Less need for extra stretch wrap and strapping
- Safer handling in warehouses
- Printable surface for branding

TECHNICAL SPECIFICATIONS

Material	Virgin PP woven fabric with anti-slip treatment
Anti-slip method	Anti-slip coating or textured finish on the outer surface (one or both sides)
Capacity	10 kg, 25 kg, 50 kg and above (custom on request)
Size	Fully customisable
Fabric GSM	60 to 130 GSM
Liner	Optional PE inner liner
Printing	Up to 4 colours
Colours	White, natural or custom
Closure	Open mouth, sewn

BEST SUITED FOR

- Cement, fertiliser and chemicals
- Grains, sugar, salt and flour
- Export shipments where stack stability is critical

Quality and Packing

Checked before it leaves, protected until it arrives

01 Raw material

Virgin polypropylene granules checked for grade and melt index before production.

02 In-process checks

GSM, tape denier, weave density, width and colour monitored during production.

03 Finished goods

Dimension, stitching, loop strength, print quality and liner fit are inspected.

04 Pre-shipment

Sample inspection before loading. Third-party inspection can be arranged on request.

TYPICAL TESTS (AS PER PRODUCT AND BUYER REQUIREMENT)

Fabric	GSM, tensile strength, elongation, mesh count
FIBC	Safe working load, safety factor, cyclic top-lift and stacking tests
Bags	Seam strength, drop test, print adhesion, lamination peel
Anti-slip	Coefficient of friction (slip angle) test on request

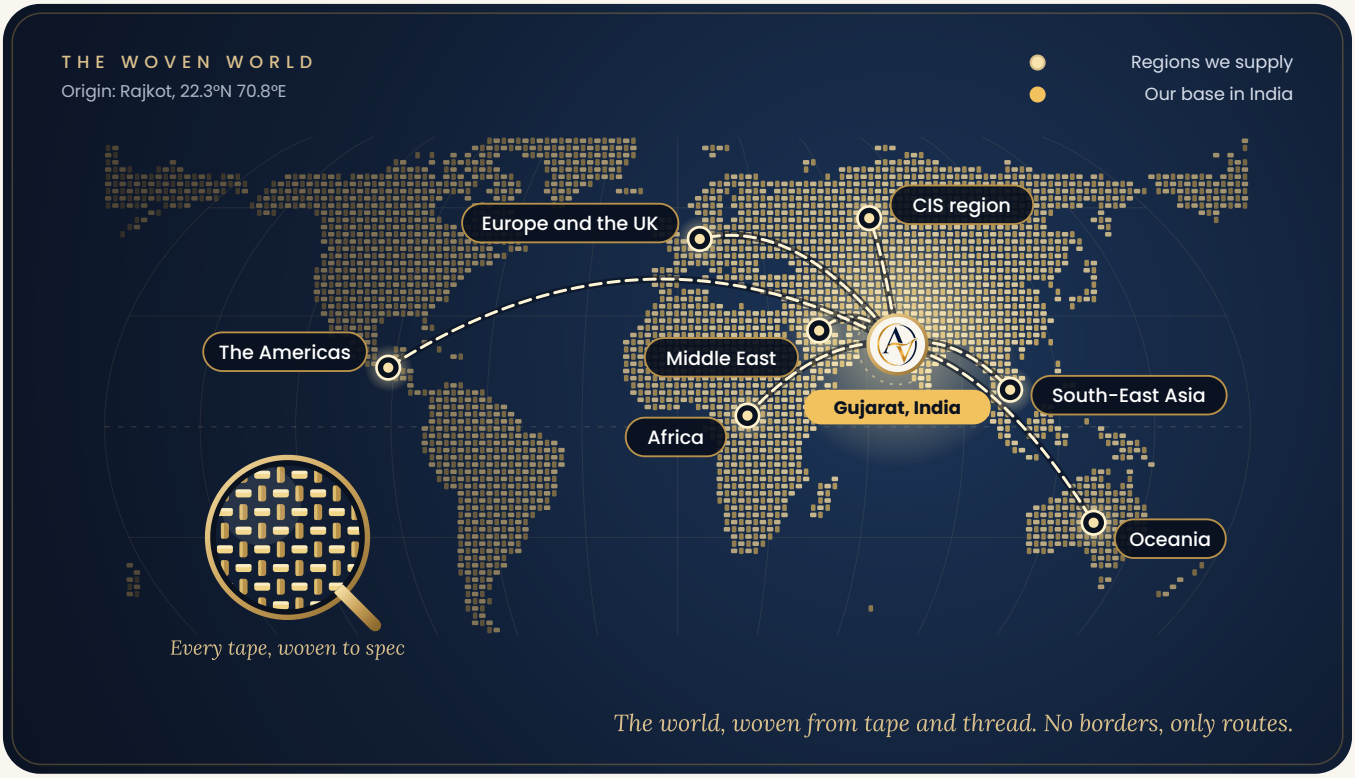

PACKING AND SHIPPING

- FIBC: folded, bundled and baled, or palletised with film wrap
- Rolls: film wrapped, labelled and strapped
- Bags: counted bundles, baled and labelled by size and capacity
- Container loading supervised and photographed for your records
